

*Crane Hire & Sales*

# Crawler Cranes

From 5t to 280t Capacity

# The Ultimate Choice

## Why NRC?

**For over 70 years, the construction and infrastructure sectors have relied on NRC Plant's industry-leading supply and hire of crawler cranes.**

NRC operates a fleet of more than 75 cranes, ranging from 5t to 280t, based at its headquarters in Essex. Significant recent investment has expanded the fleet with the latest Stage V crawler cranes, including both telescopic and lattice boom models, delivering some of the most environmentally efficient lifting solutions available in the market.

Our clients benefit from a comprehensive crane hire and sales service, supported by in-house expertise in major repairs, modifications, overhauls, testing and calibration. This end-to-end capability ensures reliability, performance and long-term value on every project.

NRC is also the exclusive distributor in the UK and Ireland for HSC Crawler Cranes and Link-Belt Telescopic Crawler Cranes, and an approved sub-distributor for the Maeda Mini-Crane range.

# Crane Hire

Elevate your projects with our crane solutions

Our crane hire services provide a robust selection of high-performance cranes and test weights for diverse lifting needs across various projects. Our fleet features versatile HSC Lattice Cranes, from the SC350 to the SCX2800A-3, and reliable Link-Belt Telescopic Cranes, ranging from the TCC550 to the TCC1400.

Additionally, we proudly provide an extensive selection of steel test weights, ranging from 25kg hand weights to 8t blocks. These are available with detailed drawings for precise project planning and execution, ensuring compliance and accuracy.

## Lattice

Our hire fleet includes a variety of HSC Lattice Cranes, from the SC350 to the SCX2800A-3, offering versatile lifting solutions for a wide range of project requirements.

## Mini Telescopic

Our hire fleet also features Mini Telescopic Cranes, including 5t and 8t Hitachis and 6t and 8t Maedas, ideal for confined spaces and precision tasks, ensuring dependable lifting capabilities.

## Telescopic Cranes

We offer a selection of Telescopic Cranes, including models from Link-Belt and Logicrane, designed to meet diverse lifting needs and ensure consistent performance across various projects.

## Test Weights

NRC offers a vast range of steel weights from 25kg to 8t blocks for various industrial needs.

## Need an operator?

Require an operator with your crane hire? We can provide full competent CPCS qualified crane operators. Ask us for more details.

## Crane Sales

**Our crane sales portfolio offers top-tier cranes suited for a variety of industrial and construction demands.**

We proudly feature the entire range of HSC SCX Lattice Boom Cranes, spanning capacities from 80t to 280t, tailored for both compact job sites and major lifting operations. Alongside, we present the Link-Belt Telescopic Crawler Cranes, designed for superior reach and reliability in diverse environments.

Additionally, we hold an extensive stock of crane spare parts, replacement components, and ancillary equipment, ensuring ongoing support and maintenance capabilities for all crane models. We offer comprehensive support and detailed information for all models, ensuring you can select the perfect crane to meet the specific requirements of your projects, with efficiency and precision.

# Crane Sectors

## Construction and Civil Engineering

NRC is one of the UK construction industry's top choices for supplying Crawler Cranes to sites across the country. With extensive experience supporting civil engineering projects - from bridge building and flood protection to shaft construction and tunnelling - NRC delivers reliable crane solutions nationwide.

NRC cranes have operated on the construction of many projects such as Office buildings, Schools, Prisons, Hotels and Industrial complexes. Presenting an extensive selection of both Telescopic and Lattice boom Crawler Cranes NRC are able to offer clients assistance in selecting the best crane for the job. Speak to the team at NRC for expert advice on accessories and attachments tailored to support your project needs.

### Demolition

NRC Plant supply Crawler Cranes to some of the UK's leading demolition companies which assists with all enabling services for building demolition, asbestos removal, remediation, and earth works.

- Erith Group
- John F Hunt
- Cantillon
- Coleman & Co.
- Demoforce

## Piling

NRC can provide cranes to assist with all aspects of Piling Works, servicing Sheet Piling Installation and Extraction, Temporary Wall Construction, and assisting with Silent Pile Installation and Removal.

NRC Cranes are used extensively in a wide range of other sectors including:

- Renewable Energy
- Marine Works
- Microtunnelling

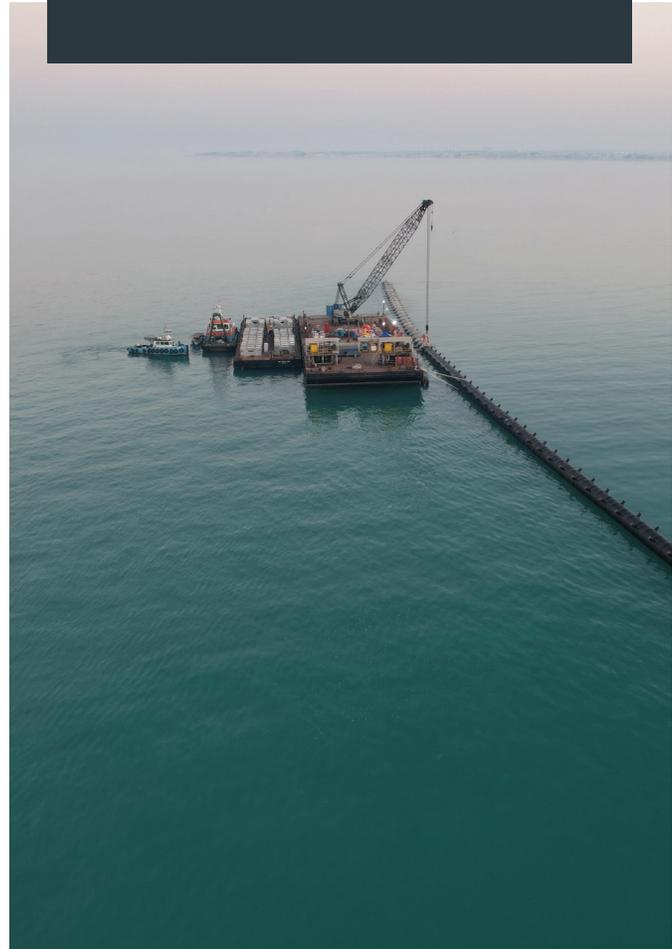

**Please contact us to discuss how we can assist with your crane requirements.**

## Marine Construction

NRC have many years of experience in specialist applications such as marine construction and barge work.

As a registered supplier for the Sizewell C Nuclear Power Station project and a partner in the Sizewell Supply Chain, NRC is well-positioned to support a variety of projects. These include the construction of piers and marinas, pipeline installation, bridge maintenance, repairs, as well as quayside repairs, flood protection, and coastal protection efforts. We are committed to leveraging our expertise and resources to contribute significantly to these critical developments.

# Our Expertise

## Crane Spares

Always responsive to clients needs, we hold an extensive stock of crane spare parts and can quickly provide new and replacement components and ancillary equipment for all new and used machines.

## Crane Refurbishment

At NRC, our Crane Refurbishment Service stands as a cornerstone of our commitment to excellence. Our offerings aim to restore, enhance, and extend the life of your essential lifting equipment.

## Paint Booth

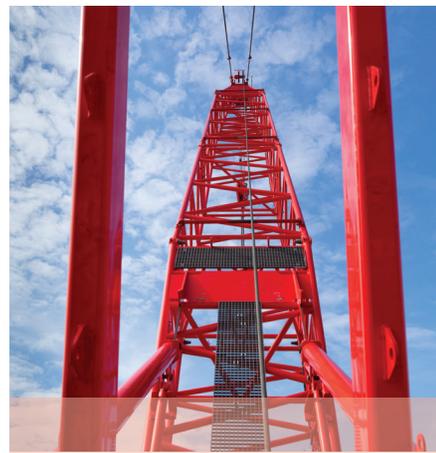

NRC's paint booth service ensures cranes are visually impeccable and weather-resistant, reflecting our commitment to quality and professionalism in every hire or sale.

## Servicing and Repair

NRC offers comprehensive Crane Servicing and Repair, ensuring operational excellence and safety with every project.

## Fabrication

NRC provides bespoke Crane Fabrication Services, combining expertise and technology to deliver custom, high-quality solutions tailored to your needs.

# Our Capabilities

## Environmental

We integrate globally recognised standards, proactive monitoring and innovation to operate environmentally responsible working practices.

### Accreditations, Certifications and Awards

- Accredited to BSI ISO 14001:2015 for Environmental Management System in UK and ME.
- BSI ISO 50001:2018 for Energy Management, reflecting our commitment to sustainability and efficiency.

### Monitoring Practices / Reporting & Data Management

- Noise, Dust, Vibration & Spill Monitoring
- Full legal compliance (e.g. Section 61, Dewatering, Waste Permits)
- SECR & ESOS compliance
- SMARTWASTE platform for tracking emissions, materials, water, waste & KPIs

## Quality

### Our Quality Philosophy and Framework

#### Prevention, Not Correction

We build quality in from the start, across design, procurement, delivery, and close-out.

#### Standards-Led

Our QMS is based on ISO 9001:2015, supported by ISO 10005, 10006, 19011 & 17020.

#### Right First Time Culture

Everyone owns quality, reinforced through onboarding, LIFE workshops, and on-site engagement.

## How we manage Quality in Practice

### Leadership & Accountability

Strategic direction is led by senior management and delivered through every role in the business.

### Supply Chain Assurance

Pre-qualified suppliers, FATs, material checks, and full traceability via MAFs and certifications.

# What is LIFE?

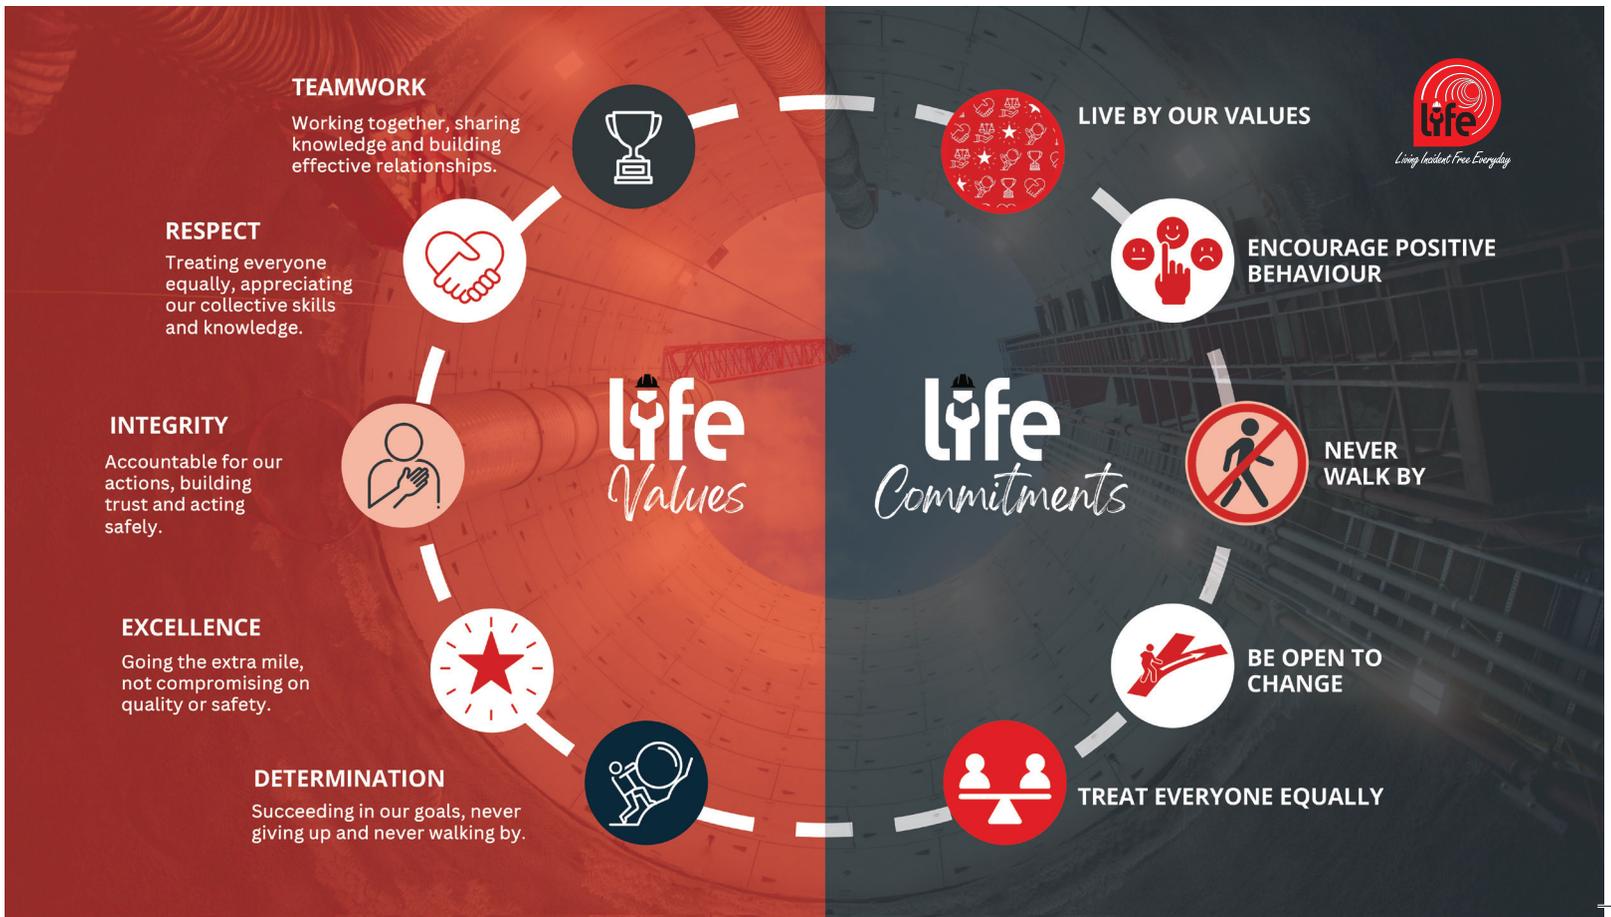

LIFE is our industry-leading behavioural culture, developed over the past 10 years, with the goal that “everyone goes home incident-free every day.”

A philosophy where everyone is responsible for living incident free everyday - from stopping unsafe work to treating everyone equally.

The LIFE programme is led by our Chairman and Managing Director of the business and supported by the LIFE Leadership Team (LLT) and LIFE Champions across all sites.

We firmly believe that, and are committed to ensuring that our LIFE culture will eliminate all incidents.

**Living  
Incident  
Free  
Everyday**

## LIFE Leadership Team

The **LIFE Leadership Team** plays a vital role in shaping the strategic direction of the LIFE Culture. Key points include:

- Diverse Expertise
- Purpose and Direction
- Driving Improvement
- Role Models
- Flexibility
- Support

## Roadmap

The **annual culture survey** is key to shaping the LIFE Leadership Team's yearly roadmap. By gathering feedback from employees, it highlights strengths, challenges, and areas for improvement. This insight helps the LLT prioritise initiatives, develop targeted programmes, and adapt strategies to meet the businesses evolving needs, ensuring meaningful change and continuous improvement.

## LIFE Champions

**LIFE Champions**, present on every project and site, are pivotal to the Joseph Gallagher Group. They promote the core principle of Living Incident Free Everyday while embodying our values: Teamwork, Respect, Integrity, Excellence, and Determination. Reporting to the LIFE Leadership Team and Project Managers, they act as **proactive ambassadors** for the LIFE culture by promoting SHEQ compliance, leading weekly LIFE meetings, addressing observations, sharing best practices, and driving cultural change across projects.

## LIFE in Action

**LIFE Workforce Engagements Workshops:** Regular training for all employees, cultivating a culture that lives by our values and strives for excellence.

# Best Practice Recognition Scheme

The Best Practice Awards recognise and motivate positive behaviours that align with company values and strengthen relationships for a high-performing culture. Awards are given for exceptional performance and excellence in core values, based on objective evidence from Observation Cards or LIFE Meetings.

## LIFE for our Clients

### Transforming Cultures Together

By partnering with Joseph Gallagher Group, you gain access to a safety culture model that is more than just a system - it's a philosophy. LIFE is the golden thread that weaves through everything we do, and we are passionate about helping our clients experience the same transformative results.

We support our clients by helping them to develop their own culture, tailoring the LIFE model to their unique needs and embedding core values into daily operations. Through industry-leading training, such as FIT for LIFE and Love for Life workshops, we empower employees and leaders to drive cultural change to Live Incident Free Everyday.

Tools like LIFE Moment Cards and colour profiling enhance team dynamics and communication, while recognition programmes, such as Best Practice Awards, motivate positive behaviours. Partnering with LIFE delivers enhanced performance, sustainable value, and industry-leading safety standards, transforming your organisation into an incident free workplace.

“

At the heart of the LIFE culture is a simple, unwavering commitment: everyone goes home safe to their loved ones every day. As your CEO, I am personally committed to ensuring that every member of our team has the support, tools, and environment needed to uphold this promise. Together, we will adapt, innovate, and continue to build a culture where wellness is not just a goal but a cornerstone of our values, guiding everything we do.

Steve Harvey, CEO
